

Reference letter for Marlen Mynzhassar

2011-09-07

To Whom It May Concern

I am writing to you to provide an academic reference for Mr Mynzhassar who is attending MSc Computing course in our department during the 2010/2011 academic year. I knew Mr Mynzhassar in my software engineering class and as his final project supervisor.

He is a self-motivated and independent student. He performed extremely well on the taught part of the program, for example he received 89.5/100 from software engineering, 44/50 from concurrent and real-time programming, 40/50 from user centred design, 40/50 from web design, 37.5/50 from software testing and 35.5/50 from computer system architecture. He is placed at the **8th place** in the cohort of 28 MSc Computing students with an average of 70.89% for the taught part.

He is currently in the final stage of his individual project. His project involves research and development of a web-based application for collaborative argumentation. Throughout this project, he has demonstrated excellent technical, critical thinking and creativity skills. He is expecting a very good grade from his final project.

Overall, Mr Mynzhassar is a bright, mature, dedicated, hardworking and well mannered young man. I'm sure you will find him to be a person whose talents will only shine further through his career. It is my hope that he will have a fantastic future career. Feel free to contact me if you require further information.

Sincerely,

Tangming Yuan
Teaching Fellow and MSc admin tutor
